SUMMARY of your first post after graduation

At MUNICIPAL CLINIC HOSPITAL I was employed as Probationer GP house officer under the direct supervision of medical consultants. While on this job, I had the following duties and responsibilities:

- Responsible for the care all patients from one ward
- In charge with the monitoring of 4- 7 patients/beds regarding treatment and health progress
- Carried out day and night time patient check-up and assessment under the supervision of a primary GP
- On call duty once a week at emergency room

Surgical Skills:

- ✓ Laparotomies (assistant)
- ✓ Appendectomy (assistant)
- ✓ Endoscopy (assistant)

- ✓ Urethral catheterisation
- ✓ Simple suturing
- ✓ Management of common dislocations

Emergency Skills:

- ✓ Management/treatment of unstable angina/MI/cardiac arrest/cardiac
- ✓ Management/treatment of arrhythmias, respiratory distress failure including life-threatening asthma
- ✓ Acute abdominal pain (bowel obstruction, biliary /renal colic, peptic ulcer disease, ruptured AAA, acute urinary retention, etc.)
- ✓ Seizures (adult/ paediatrics)
- ✓ Suicidal/ Para suicidal attempts, head injuries, psychosis/ anxiety states including panic attacks plus many more including all of the skills listed above

Between Jan 2004 - Dec 2006 I was employed at Luis Turcanu, Pediatric Hospital part of my specialization/internship in general medicine. During this period I had completed the following assignments:

- 6 months in GP Surgery
- 9 months at ASCAR CARDIOLOGY HOSPITAL
- 8 months at BEGA Pediatric Hospital
- 2 months at Psychiatry Hospital
- 2 months at Neurology Hospital
- 2 months Gastroenterology
- 4 months Gynecology and obstetrics
- 2 months Surgical Department
- 2 months at Dermatology Hospital

Surgical Skills:

- ✓ Laparotomies(assistant)
- ✓ Appendectomy(assistant)
- ✓ Endoscopy(assistant)
- ✓ Urethral catheterisation
- ✓ Simple suturing
- ✓ Management on common dislocations

Emergency Skills:

- ✓ Management/treatment of unstable angina/MI/cardiac arrest/cardiac
- ✓ Management/treatment of arrhythmias/respiratory distress/ failure including life-threatening asthma
- ✓ Acute abdominal pain (bowel obstruction, biliary/renal colic, peptic ulcer disease, ruptured AAA, acute urinary retention, etc.)
- ✓ Seizures (adult/ paediatrics)
- ✓ Suicidal/ Para suicidal attempts
- ✓ Head injuries
- ✓ Psychosis/ anxiety states including panic attacks and many more including all of skills listed above
